

<u>Step 1.</u>

To register your smartcard you will need to place your smartcard on top of the will symbol displayed on the front panel of the Konica Minolta device

<u>Step 2.</u>

Tap the keyboard icon next to USERNAME on the screen and then enter your campus account username

<u>Step 3</u>

Tap the keyboard icon next to PASSWORD on the screen and then enter your current campus password

Please note that you need to press the SHIFT button to get capital letters and that it persists in capitals until pressed again.

<u>Step 4.</u>

Once you have entered your username and password press **OK**.

<u>Step 5.</u>

You will initially be presented with your list of pending jobs. You can choose to print your jobs now, or if you wish to use a different function, press the Menu/Home button. This takes you to the main home screen where you can choose to Scan and Photocopy.

To log out:

Press the **Access** button to log out:

Choose any Konica Minolta Device – place your card on the sensor on top of the () symbol displayed on the front panel of the device

In the event that you have <u>left your smartcard at home, you are still able to log on to any</u> <u>device manually</u>. Simply type in your username and password at the main screen, then press **OK**

Job Expiration

Print jobs expire after 24 hours if they are not pulled down. If you do not collect your jobs within this time you will need to re-print them.

Printing Defaults to Black & White

All printing is in black & white by default. To print in colour, you must manually select Auto Colour from the **Quality** tab in **Printer Properties** each time you need it.
